# WELCOME TO ON-CHAIN DYNAMICS

Step into a transformative era of crypto trading with the comprehensive tools offered by On-Chain Dynamics. Our advanced suite of trading bots isn't just feature-rich—it's designed to redefine trading standards. Whether you're a crypto novice or a seasoned veteran, On-Chain Dynamics aims to elevate your trading potential and set new benchmarks for your profit goals.

# OCD TRADING TOOLS

Cutting-Edge Tools and Capabilities

## SNIPER BOT

A trading algorithm designed to quickly execute trades at specific conditions, capitalizing on fleeting market opportunities

## ALGORITHMIC TRADING

The automated execution of trades based on pre-defined criteria and strategies using computer and AI algorithms

## FLASHSWAP ARBITRAGE

Strategy that leverages instant borrowing in DeFi protocols to exploit price discrepancies between assets across different platforms without initial capital

## MEV BOT

Identifies and capitalizes on profitable on-chain opportunities by leveraging the ability to reorder or censor transactions within a block

## COPY TRADING

Copy trading is a strategy where investors automatically replicate the trades of experienced and successful traders in real-time

## TELEGRAM & DISCORD BOTS

Automated scripts on messaging platforms to execute trades based on signals or specific conditions communicated within these channels

# FEATURES & OPTIONS

Currently Available

## MEMPOOL SCANNER

Scans the mempool for transactions and snipes your desired token in a few milliseconds

## PROFIT SELLING

Immediately sell tokens after X amount of profit is made

## INTEGRATED CHARTS

View realtime charts so you can track your profits in our intuitive UI

## ON-CHAIN SWAP

High speed swaps processed directly on the blockchain, ensuring security and transparency

## CONTRACT AUDIT

Our contract audit can prevent you from most honeypots and scam tokens to protect your investments

## LIVE DASHBOARD

Integrated realtime tracking to keep up to date on your current trades

## ANTI MEV SOLUTIONS

Shield your trades with private transactions and front run protection

## STOP LOSS PROTECTION

Safeguard your investments by setting a threshold for automatic selling if losses reach a certain level

# FEATURES & OPTIONS

## BALANCE CHECKING

Instantly view your wallet balances using our user friendly interface to stay informed

## SNIPE ANY CONTRACT METHOD ID

Select a MethodID from the contract and listen to the mempool (pending transactions)

## MULTI-WALLET SUPPORT

Add multiple wallets to expand your capabilities and maximize trading opportunities

## INSTANT SELL

Take control of your trades by executing an instant sell whenever you want

## TOKEN TAX PROTECTION

Our tax guard allows you to set limits and protect yourself against high tax/scam tokens

## LIQUIDITY VALUE CHECKER

Our bots will only place buy orders if the value of added liquidity meets your requirements

## ADD YOUR OWN PRIVATE NODE

Personalize your trading environment by adding custom https and wss providers

## CUSTOM SLIPPAGE AND GWEI

Set custom slippage and gas price values independently for fine-tuned strategies
